About

I'm a software engineer with over 2 years of hands-on experience building web applications. I specialize in the React.js ecosystem and TypeScript, and I'm passionate about creating scalable, user-friendly solutions. I've had the chance to work on projects that significantly improved efficiency and user engagement, and I'm always looking to learn and tackle new challenges.

Professional Experience

Software Engineer | ITINFODEV

Mar 2023- present

- Worked on web applications using React.js, with a focus on optimizing solutions for the farming industry. This led to a noticeable boost in efficiency across the board.
- Developed an event management app using Flutter and Firebase, complete with in-app subscriptions. Also created a React.js admin panel to simplify backend management, which cut down manual work by 40%.

Fullstack Engineer | Awaitforme

<https://awaitfor.me>

May 2024 - Aug 2024

- Built a waitlist management tool from the ground up, which included features like advanced analytics and subscriber exports. The result? A solid bump in user sign-ups.

Skills & Competencies

Typescript, Reactjs, Nextjs, Nodejs, Flutter

Docker, CI/CD, Git, Github

MySQL, PostgreSQL, MongoDB

Problem Solving, teamwork, adaptability

Education

Fullstack Engineer Program Graduate

The African Leadership University
2022-2023

- Completed several projects on web apps and cloud deployment, gaining a solid foundation in modern development practices.
